KHUTSO MAKUNYANE

Junior Software Developer | Full-Stack | AI & ML Developer

South Africa, Pretoria khutsomakunyane1@gmail.com https://dark-mode-sigma-teal.vercel.app/

PROFESSIONAL SUMMARY

I'm A Junior Software Developer From Pretoria Specializing In Full-Stack Web And Mobile Applications Using JavaScript, TypeScript, Python, React, React Native, And Node.Js. I Also Work With AI/ML Tools Like Scikit-Learn And PyTorch To Build Smarter Applications. I Care About Both How The Code Runs And How The Interface Feels—So I Always Combine Development With UI/UX Design Principles. Right Now, I'm Enrolled In A Python Programming Course At The University Of South Africa (Unisa) To Keep Growing.

WORK EXPERIENCE

Web Developer & Web Designer

SmartBiz Digital Solution (2024 - 2025)

-Design And Develop Responsive Websites Using HTML, CSS, JavaScript, React, And Tailwind CSS.
-Create User-Centered UI/UX Designs For Web And Application Projects.
-Develop And Integrate Frontend Components With Backend Services.
-Collaborate With Clients To Translate Business Requirements Into Functional Digital Solutions.
-Maintain And Improve Existing Websites For Performance, Usability, And Responsiveness.

PROJECTS & EXPERIENCE

- **QueueCare** — Full-Stack Web Application

  React • Express.Js • Node.Js • MongoDB • JWT • Render

  - Developed Full-Stack Web Application With JWT Authentication Serving 50+ Active Users.
  - Built RESTful API Handling 100+ Daily Requests With <200ms Response Time.
  - Deployed With CI/CD Pipeline Achieving 99% Uptime.

- **PulseAI** — AI/ML Web Integration

  Python • Scikit-Learn • Transformers • FastAPI • React • PostgreSQL

  - Implemented NLP Text Summarization Achieving 85% Accuracy On Test Data.
  - Preprocessed 10,000+ Text Samples Using Pandas And NumPy.
  - Deployed ML Model Via FastAPI Endpoint With <500ms Inference Time.

- **Talkify** — Desktop Application

  Python • PyQt5 • Pyttsx3 • Inno Setup

  - Developed Text-To-Speech Desktop App With <10MB Memory Footprint
  - Packaged For Windows Distribution With Single-File Installer
  - Implemented Audio Controls And File Export Functionality

TECHNICAL SKILLS

- **Programming Languages:** JavaScript (ES6+), TypeScript, Python, SQL, HTML5, CSS3.
- **Frontend Development:** React.Js, Tailwind CSS, Responsive Design, UX/UI Principles, FigmaPrinciples.
- **Backend Development:** Node.Js, Express.Js, Django, FastAPI, RESTful APIs, JWT Authentication.

- **Database:** PostgreSQL, MongoDB, Supabase, SQL.
- **Mobile Development:** React Native, Expo.
- **AI & ML / Data Analysis:** Scikit-Learn, Pytorch, Pandas, NumPy, Transformers, NLP, Model Training & Evaluation.
- **DevOps & Deployment:** Git, GitHub, CI/CD, Vercel, Render, Docker (Basic).
- **Testing & Debugging:** Chrome DevTools, Postman, Manual Testing, Cross-Browser Compatibility.

EDUCATION & CERTIFICATIONS

Python Programming (77100) – SCPPE20

University Of South Africa (Unisa) : 2026 (Semester 1 – In Progress)

Afrika Tikkun, Microsoft (Certificate)

Software Developer 2026

Software Engineering With Python (Certificate)

Udemy | 2026

Full-Stack MERN Stack Development (Certificate)

Power Learn Project (PLP Academy) | 2025

Awarded Competitive African Scholarship. Covered Full-Stack Development,
UX/UI Design, And Collaborative Software Engineering.

National Senior Certificate (Grade 12)

Vlakfontein Secondary School (2020)

-Location: Pretoria, South Africa — Open To Remote, Hybrid, Or Relocation Anywhere In South Africa

-Availability: Immediate.

-GitHub: Active Contributor, 5+ Public Repositories With Documentation.

-Languages: English (Professional Working Proficiency).

-Work Authorization: South African Citizen.
